

## Car jump starter Blitzwolf BW-JA1 20000mAh

Car jump starter Blitzwolf BW-JA1 20000mAh

Ref: 5905316148369

### Blitzwolf BW-JA1 20000mAh Car Jump Starter with Compressor

The Blitzwolf BW-JA1 is a car jump starter with a compressor and a flashlight that can also serve as a 20000mAh power bank. With a peak current of 2500A and strong clamps, it can start a vehicle in just a few seconds, even in extreme temperatures ranging from -20°C to 60°C. Whether it's a gasoline or diesel engine with a capacity of up to 8.0L, this jump starter ensures reliability and support in critical situations. Suitable for 12V vehicles, especially heavier ones, it provides versatility and confidence even on challenging journeys.

### High-Performance Compressor

The Blitzwolf BW-JA1 not only impresses with a maximum pressure of 150 PSI and an airflow of 45 l/min but also provides convenience and ease of use. It takes only 3 minutes to fully inflate a car tire (0-36 PSI), and for everyday needs, just 1 minute to adjust the pressure from 25 to 36 PSI. However, it does not support truck tires. Advanced features such as smart presets and automatic shutdown make operation intuitive and trouble-free. With the included adapter kit, users can also inflate bicycle tires, air mattresses, or water toys for children.

### Practical High-Capacity Power Bank

In addition to the compressor and jump starter functions, the BW-JA1 can also serve as a reliable 20000mAh power bank. It features two USB ports for fast and efficient charging of phones and other accessories. This feature is especially useful during long trips where access

to power sources is limited or in emergency situations on the road.

#### Lightweight and Compact

The Blitzwolf BW-JA1 combines compact dimensions and low weight, making it the perfect companion for any journey. With a weight of only 780g and dimensions of 220 x 95 x 89mm, this small yet efficient device takes up minimal space, which is undoubtedly an advantage when it comes to limited vehicle space. Thanks to its small size, it can be stored almost anywhere, from the trunk to the glove compartment, making it easily accessible in emergencies. Despite its compact design, it does not compromise on functionality and performance, providing support in various road situations.

#### Package Contents

- Clamps x 1 pair
- USB-C to USB-A cable x 1
- Air hose x 1
- Inflation adapter x 1
- Carrying case x 1
