### Darkflash G200Plus Cooling Stand (Silver)

Darkflash G200 Plus is a cooling stand for laptops up to 16 inches in size, made from aluminum and polypropylene. It features one main fan and four smaller ones. It offers 5 tilt levels ranging from 10°-65°. Once plugged into the USB port, the stand cools the laptop in 20 seconds without needing any configuration, prolonging the laptop's lifespan. The device has a conveniently located switch to toggle the RGB lighting and the fans. A phone holder included in the set can be placed on the right or left side of the stand.

### Efficient Cooling System

The G200Plus is the perfect blend of performance and aesthetics. Made of aluminum and polypropylene, the stand ensures optimal cooling with its main fan measuring 140 x 140 x 12mm and four smaller fans of 60 x 60 x 12mm each. This ensures your laptop runs smoothly even during intensive use. It's also worth noting that the stand is silver, adding to its elegance.

### Adjustable Tilt Angle

The Darkflash G200Plus offers 5 tilt levels, from 10° to 65°, allowing users to adjust the laptop's position to their preference. This means one can work in the most comfortable setting, minimizing fatigue during long hours in front of the screen.

### Cooling in 20 Seconds

Thanks to the simple USB connection, the Darkflash G200Plus cooling stand starts working almost immediately upon activation. In just 20 seconds, it efficiently cools the laptop, helping to maintain a stable temperature and extending the device's lifespan. This is an excellent feature, especially for users working in demanding conditions or for extended hours.

#### RGB Lighting

The G200Plus stand not only cools the user's laptop but also accentuates its style. A handy switch allows control over the RGB lighting and fans, enabling one to customize the stand's appearance to their liking. It's a subtle but satisfying way to spice up your space.

#### Convenient Phone Holder

The set also includes a phone holder, which can be placed either on the right or left side of the stand. This is a useful addition, helping to keep devices in one place, thus enhancing productivity.
