

## Mechanical Keyboard Darkflash GD108, wireless (blue)

Ref: 4710343796022

Mechanical Keyboard Darkflash GD108, wireless (blue)

Darkflash GD108 Mechanical Keyboard, Wireless (Blue)

Darkflash GD108 is a wireless mechanical keyboard equipped with 110 keys, a 1200mAh battery, anti-ghosting function, dual-mode connectivity that allows the keyboard to be used on two devices simultaneously, and an anti-ghosting feature ensuring every keystroke is registered even if many are pressed at once.

### Wireless Convenience

The GD108 offers freedom with its wireless connectivity feature, eliminating cumbersome cables. Its built-in 1200mAh lithium battery provides long-lasting power, allowing for intensive gaming or work sessions without frequent recharging.

### High-Quality Keys

The keyboard is equipped with 110 mechanical keys, ensuring not only exceptional durability but also a quick and precise response to every press. A key lifespan of 50 million clicks ensures that the GD108 will serve for many years.

### Dual Connectivity

The innovative 2.4GHz dual connectivity mode allows pairing the keyboard with two devices simultaneously. This is a handy feature for users working on multiple computers or wanting to switch between devices without reconfiguring.

#### Comfort and Durability

The GD108 keyboard is designed for user comfort. Made of durable materials, it ensures sturdiness and longevity, and its pleasant texture provides a comfortable typing experience without being prone to fingerprint marks. Anti-slip stickers and adjustable tilt ensure stability and comfort. Moreover, under one of the foldable legs is a computer-pluggable Bluetooth receiver, conveniently located to prevent easy loss.

#### Indicators and Energy Saving

The GD108 keyboard features LED indicators showing connectivity and power status, helping to monitor its performance. Additionally, a built-in switch allows for energy-saving, especially useful when leaving the keyboard idle for extended periods.
