Cordless vacuum cleaner INSE V770

Ref: 6975907030204

INSE V770 upright vacuum cleaner

With the INSE V770, you can easily keep your home tidy. The cordless upright vacuum cleaner uses a suction power of 12,000 Pa and filters up to 99.99% of dirt for effective cleaning. What's more, it runs quietly (80 dB), up to 60 minutes on a single charge. It also features a lightweight and ergonomic design, and LED backlighting makes it easy to vacuum nooks and crannies.

Quickly and effectively eliminates dirt

Create a clean and safe environment in your home. The vacuum cleaner removes dirt with a force of 12,000 Pa and is equipped with a brushless DC motor that runs at 80,000 rpm. It perfectly handles dust, crumbs, hair, hair, litter, etc. What's more, it uses a 5-stage filtration system, whose efficiency reaches 99.99%. The filter elements are reusable and you can clean them under running water without worry.

Durable battery

Vacuum for up to 60 minutes on a single charge. The INSE V770 is equipped with a 2200 mAh battery, which allows for a long run time. In turn, charging the vacuum cleaner will take about 3 h. You can charge the battery along with the vacuum cleaner or separately.

Thorough vacuuming - brush with LED illumination

No dirt will escape your attention. The upright vacuum cleaner has a wide brush with LED illumination, which makes it much easier to vacuum the space under the couch and other dark corners. In addition, the brush is suitable for surfaces such as short-pile carpet, marble, and wood. In addition, it rotates 180° sideways and 90° forwards and backwards, for even more comfortable use.

Additional brushes included

The INSE V770 will allow you to take care of the cleanliness of almost any surface. The kit includes a crevice brush, which you'll use when vacuuming your car, couch crevices, etc. And the 2-in-1 brush makes it easy to get rid of pet hair from the sofa and will come in handy when cleaning curtains.
