

## Cordless vacuum cleaner INSE S10

Cordless vacuum cleaner INSE S10

Ref: 6975907030037

INSE S10 upright vacuum cleaner

INSE S10 will allow you to take care of cleanliness around the house. The vacuum cleaner uses an LED-illuminated brush to easily get rid of dust. The suction power of 26,000 Pa thoroughly picks up dirt, and the durable battery provides up to 50 minutes of operation. You can also choose between 3 operating modes, and the vacuum's lightweight design (1.6 kg) makes it comfortable to use. The kit also includes additional brushes.

3 working modes

Customize the operation of the INSE S10 to suit your needs. The vacuum cleaner offers 3 modes of operation: Deep (15 min), Comfortable (30 min) and Eco (50 min). What's more, the device remembers the last mode used. The product also has a dedicated switch with which you can lock the mode - so you don't have to press the button all the time while cleaning. This will avoid the feeling of fatigue and finger strain.

Get rid of dust and dirt

The vacuum cleaner offers a suction power of 26,000 Pa and uses 350 watts of power. This translates into effective cleaning. What's more, the brushless motor stands out for its efficient operation and prolongs the life of the device. In addition, the 6-stage filtration system effectively separates 0.3 micron dirt from the air.

#### Thorough cleaning

The device has a brush with illumination, which allows for thorough cleaning of spaces under furniture where light does not reach. In addition, the V-shaped design prevents hair from getting entangled. What's more, it features a flexible design, so you can maneuver it comfortably - it rotates sideways 150°, and forward and backward 90°.

#### 2 brushes included

With INSE S10, your entire home will be sparkling clean. The set includes accessories with which you will clean different types of surfaces. The crevice brush will come in handy when vacuuming narrow spaces between furniture, and the 2-in-1 brush will be suitable for cleaning your couch and car upholstery.

#### Thoughtful design

The vacuum cleaner does not generate much noise - 65 dB, so you can use it without disturbing your household members. What's more, the dust container is distinguished by its capacity of 1.2 liters so you don't have to empty it too often. In turn, storage is made easier by the included wall bracket.
