

# Rotatable Litter Scoop Cheerble

Ref: 840026044233

Rotatable Litter Scoop Cheerble

Cheerble rotating scoop

Make litter box cleaning easy. The Cheerble rotatable scoop features a carefully thought-out design that allows you to efficiently separate used, clumped litter and dispose of it in the trash without spilling on the floor. The two-size mesh grille makes the product ideal for most types of litter. The scoop also features a large capacity and ergonomic design.

#### Easy cleaning

The shovel is distinguished by its carefully thought-out semi-closed design, which not only makes cleaning easier but also limits the spread of dust. Simply separate the clumped litter from the clean litter, then turn the shovel over and dispose of the waste in the trash. No more worrying about waste falling on the floor - say goodbye to mess! What's more, the Cheerble shovel is distinguished by its large capacity, allowing you to significantly reduce cleaning time.

# Suitable for different types of litter

The scoop is ideal for separating clumped litter from the litter that can still be used - the latter will simply fall back into the litter box. This avoids throwing away large amounts of clean litter along with the used litter. What's more, the Cheerble shovel features a grid with two mesh sizes. This means that it's perfect for different types of litter.

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente) Phone: +351962484153 (Call to national mobile network) Email: info@mobilemax.pt

### Ergonomic design

Thanks to its carefully thought-out design, the Cheerble shovel makes cleaning up easy and comfortable. The long handle fits well in the hand, and the hard, solid edge makes it easy to scoop the litter. The scoop also comes with a small silicone handle. When you're not using it, you can simply hang it in the desired location. This is a great way to store it and save space in your apartment!
