

Car Charger Acefast B7, 45W, 2x USB, with display (black)

Ref: 6974316280989

Car Charger Acefast B7, 45W, 2x USB, with display (black)

Acefast B7 car charger

Equip yourself with the handy Acefast B7 car charger to charge your devices quickly and safely. The product is equipped with two USB-A ports, moreover, its power reaches 45W. The charger is compatible with multiple fast charging protocols and DC 12V-24V input voltage, plus it has a practical LED display.

Instant charging

Is your phone discharged and you're on the road? With the B7 car charger, you can renew the energy of up to two devices at the same time - because there are two USB-A ports at your disposal. Importantly, the device is compatible with such fast charging protocols as QC3.0, AFC, FCP or SCP, for example.

Well-designed

The Acefast B7 car charger is extremely compact and weighs just 40 grams. It maintains a stable position even on bumpy roads and provides a steady flow of current, plus it is compatible with DC12-24V input voltage, so it will work well in both cars and trucks. Also noteworthy is the LED display - it provides real-time information on charging parameters.
