

Water flosser ENCHEN Mint 3 (pink)

Water flosser ENCHEN Mint 3 (pink)

Ref: 6974728539200

ENCHEN Mint 3 irrigator (pink)

Take care of complete oral hygiene with Enchen. The irrigator will provide you with perfect cleanliness. Thanks to the stream of water, which is brought out by a special nozzle, you reach the most inaccessible nooks and crannies, removing food residues from gum pockets and spaces between teeth. The device offers 3 modes of operation, and an automatic shut-off function protects the battery from wear and tear. The retractable nozzle makes it easy to transport, so the ENCHEN Mint 3 Irrigator can accompany you on any trip. The waterproof rating is IPX7.

Customize its operation to suit your needs

You can choose from three modes - normal, gentle and pulse. Each of them will provide you with optimal oral hygiene. It only takes 3 minutes for your teeth to shine clean - after that time the device will turn off automatically. The powerful battery allows for up to 20 days of use. Charging will be facilitated by the USB-C cable you will find in the set.

Convenient use

Take care of your oral hygiene wherever you are! The irrigator's nozzle easily stows in the water tank, so you don't have to worry about it breaking off or getting lost during transport. What's more, the irrigator's waterproof rating is IPX7, so there's nothing stopping you from using it in the shower.
