Inductive charger 3in1 Qi with stand Acefast E15 15W (white)

Acefast 15W E15 3-in-1 Qi inductive charger with stand (white)

Get the ability to wirelessly charge up to 3 devices at the same time. The Acefast E15 inductive charger will allow you to charge your smartphone, smartwatch and wireless headphones at the same time. It provides power of up to 15W and guarantees safe use. It is also distinguished by its wide compatibility. The product can also serve as a stand.

Charging 3 devices simultaneously

You no longer need to use 3 different chargers to renew the energy of your headphones, phone and smartwatch. With the E15 you will charge them all at the same time! What's more, the product offers a total output power of 15W, which means you don't have to wait too long until your devices are ready to use.

Safe to use

Thanks to a smart chip, the charger allows not only fast, but also safe charging. Don't be afraid of damaging the batteries of the devices placed on it! The E15 also received multi-level protection, including overcurrent and overheating. All this ensures that it will serve you well for a long time!

Practical stand

The E15 charger will also be perfect as a stand for your phone or watch. With its help, for example, you can comfortably watch videos on your smartphone, take notes or participate in video conferences. It has been curved at a 60° angle, so it will provide you with comfort. You can also place your phone on it horizontally or vertically.

Improved design

Thanks to its carefully considered improved design, the charger will provide the necessary stability for the devices placed on it. In addition, there are special anti-slip pads on its bottom to prevent it from sliding on the surface of a desk or table. If necessary, you can also remove the smartwatch charging pad.
