

## Receiver FlySky FS-i A10B

Receiver FlySky FS-i A10B

Ref: 5905316147522

### Excellent Signal Performance:

FlySky Receiver - BS6 (Product Model: FS-iA10B) is an advanced and reliable radio receiver that provides excellent signal quality and a wide range of functions. With its innovative design and advanced technology, it is an ideal choice for pilots looking for professional RC equipment. This receiver offers as many as 10 PWM channels, allowing precise control of various aspects of the model.

### Huge Scope

Its extremely stable radio communication is based on 2.4 GHz and the AFHDS 2A protocol, which ensures exceptional signal efficiency and minimizes interference. The receiver's range is an impressive 500 to 1,500 meters in the air, allowing it to freely explore areas even over long distances. The dual antenna with 150mm copper tubes each effectively amplifies the signal, guaranteeing reliable operation in a variety of conditions.

### Multifunctional Connections

The FlySky - BS6 receiver is extremely versatile, offering multiple connection options such as PWM, PPM, i.bus and s.bus. As a result, it can be seamlessly integrated into various types of RC models, making it ideal for enthusiasts of different disciplines.

### Operating Under Different Conditions

Regardless of weather conditions, this receiver works reliably. Its wide temperature range (-10 °C - + 60 °C) and humidity (20% - 95%) ensure full functionality in both extreme cold and heat.

#### Online Updates and Compact Size

An additional advantage of this product is the ability to update the software online, which allows you to take advantage of the latest features and improvements. The compact dimensions (47 33.1 14.7 mm) and light weight (19.3 g) make this receiver easy to mount and do not overburden the structure of the model.

#### Safety Certifications:

FlySky - BS6 receiver (Product Model: FS-iA10B) is CE certified and FCC ID: N4ZFLYSKYIA10, confirming its compliance with safety and quality standards. All these features combine to create an indispensable control system component for any modeler who values reliability, precision and advanced features.

#### Product Model:

FS-iA10B

#### PWM channels:

10

#### Wireless frequency:

2.4GHz

#### Wireless protocol:

AFHDS 2A

#### Range:

500 □ 1500m (in the air)

#### Antenna type:

Dual copper tube antenna (150mm \* 2)

#### Power:

4.0-8.4V

#### RSSI:

Supported

#### Data port:

PWM / PPM / i.bus / s.bus

#### Temperature range:

-10 °C — + 60 °C

#### Humidity range:

20% -95%

#### Online Update:

Yes

#### Dimensions:

47 mm x 33,1 mm x 14,7 mm

#### Weight:

19.3 g

#### Certification:

CE, FCC ID: N4ZFLYSKYIA10

Price:

**€ 23.51**
