

## Powerbank Baseus Magnetic 10000mAh 20W MagSafe (white)

Ref: 6932172613594

Powerbank Baseus Magnetic 10000mAh 20W MagSafe (white)

### Baseus Magnetic 1000 mAh 20W Powerbank (white)

Enjoy convenient and fast charging of your devices. Powerbank Baseus Magnetic is distinguished by its capacity of 10,000 mAh and provides output power of up to 20 watts. Lightweight and handy - it can accompany you almost anywhere. It also allows wireless charging. The device is also equipped with an easy-to-read display and a practical stand so you can place it on a table or desk.

### Charge 2 devices simultaneously

The Baseus Magnetic powerbank allows you to quickly charge up to 2 devices simultaneously. It is equipped with a USB-C port, with which you can, for example, restore power to your smartphone or tablet. This is ideal if you want to use your device connected to power! There is also an inductive charging function with up to 10 watts of power. Note: for Apple devices, the maximum output power of wireless charging is 7.5 watts.

### Built-in magnets

The product has built-in high-end magnets that can provide the necessary stability for your smartphone. What's more, it starts charging immediately when you place a compatible device on it. You don't even have to take your phone out of the case! You can also position your smartphone vertically or horizontally - the choice is yours. Note: it is recommended to use Apple or Baseus magnetic inductive charging cases. Compatibility with cases from other manufacturers is not guaranteed.

### Fast charging

No more prolonged waiting for your devices to be ready to use again! The Baseus Magnetic powerbank supports fast charging. In the case of inductive charging, it provides output power of up to 10 W, 7.5 W or 5 W. This means you can charge your iPhone, AirPods, selected Samsung smartphones and more in no time. In addition, the device's USB-C port offers output power of up to 20 watts. This means that it only takes about 30 minutes to charge an iPhone 13 to 50%, for example.

### High capacity

Forget about having to charge your powerbank after every use. The Baseus Magnetic model features a capacity of 10,000 mAh. That's enough to charge an iPhone 13 about 1.8 times, an iPhone 12 about 2 times, and an iPhone 8 about 3 times. Charging the powerbank itself won't take long either. The device supports PD / QC fast charging standards and an input power of 18 watts, so you can get it back to 100% power in just about 3-4 hours.

### Improved design

The thoughtful design of the device is also noteworthy. The Baseus Magnetic model has a built-in easy-to-read display that shows the percentage of battery charge. The screen has also been covered with a special coating that protects it from scratches and fingerprints. The powerbank also has a metal fold-out stand, so you can, for example, place it on a table while induction charging your phone and watch a movie comfortably.

### Greater safety

Don't worry about the powerbank overheating. The device is equipped with a heat sink, which is responsible for efficient heat dissipation. The product has also received an advanced protection system that protects it from overcharging, overvoltage, overcurrent and short circuit, among other things. You don't have to worry about the powerbank or the devices you are charging being damaged!

### The perfect travel companion

The Baseus Magnetic powerbank is extremely lightweight and handy. Its thickness is only about 20 mm. You can easily find a place for it in your purse or backpack and take it with you on vacation. The device also meets international aviation standards, which means you can carry it with you even on an airplane. This is an ideal choice for people who travel frequently!

### Included:

Powerbank

Charging cable (USB-C to USB-C)

Manufacturer

Baseus

Name

Magnetic Bracket Wireless Fast Charge Power Bank 10000mAh 20W

Model

PPCX000002

Color

White

Battery

Lithium-ion polymer

Capacity

10,000 mAh / 3.85 V / 38.5 Wh

Rated capacity

5800 mAh (5 V 3 A)

Energy conversion factor

≥75%

USB-C input

5 V / 3 A; 9 V / 2 A;

USB-C output
