Mechanical keyboard Royal Kludge RKH81 RGB, Sky cyan switch (green)

Royal Kludge RKH81 RGB mechanical keyboard, Sky cyan switch (green)

Are you looking for tried-and-tested hardware that is equally suitable for work and entertainment? The Royal Kludge mechanical keyboard is the perfect choice! It adapts to you in every way, as you can not only freely exchange switches on it, but also connect to it in various ways. What's more, its clever design will ensure uninterrupted comfort during use.

Many possibilities

The Royal Kludge Keyboard has been developed with many usage scenarios in mind. It is equipped with 2 USB-C ports, so you can connect several devices to it simultaneously. It is compatible with phones, storage devices, mice, headphones, and that's not all! What's more, you'll find a special cover included to protect the keyboard from dust and water. Plus, if you're a gaming fan, this keyboard is for you too! It allows you to change switches freely, and the included special key will make this task easier.

Clever design

What sets the Royal Kludge keyboard apart is its thoughtful design. It is made of robust materials, which makes it highly durable and resistant. What's more, its multi-layered structure reduces noise, so it will work quietly and not disturb other people in the room. In addition, it is equipped with larger keys, for better working comfort. It also has non-slip feet so it will always stay in place.

Tailored to your needs

The Royal Kludge keyboard adapts to your needs. In the dedicated PC application, you can change its settings according to your expectations. Amongst other things, you will be able to change the use of the keys or select the backlighting you want. This way, the keyboard will be personalised and your work even more comfortable!

Many combination possibilities

Royal Kludge responds to your needs and gives you the possibility to connect to the keyboard in as many as 3 different ways! If you are a fan of traditional solutions - choose a wired, cable connection. However, if you want to get rid of the tangled wires, connect to selected devices using a 2.4 GHz network or Bluetooth (in which you can connect to as many as 3 devices simultaneously). What's more, you can conveniently switch between connected devices thanks to a special switch, located on the keyboard.

Long battery life

Worried about your keyboard losing power when you least expect it? With the Royal Kludge, you can put those fears behind you! It is equipped with a 3750 mAh battery, so it can work for up to 220 hours. What's more, it is equipped with a special display that informs you of the current state of charge. From now on, you will always renew its energy on time!

RGB backlighting

Give your work more colour! The Royal Kludge keyboard is equipped with RGB backlighting with up to 16.80 million colours. What's more, there are also 14 different modes at your disposal. Adjust the colours to your current mood or game and give your keyboard a unique look!

High compatibility

The Royal Kludge device shows great compatibility, so you don't have to worry about it not working with your hardware. It works with phones, mice, headphones, but not only that! You also don't have to worry about the operating system you use, as this keyboard will work with Windows, iOS/ Mac OS, Android and Linux. Enjoy exceptional freedom!
