

## Smart Odor Eliminator Petoneer

Smart Odor Eliminator Petoneer

Ref: 6930460005168

### Smart Odor Eliminator

Ensure cleaner, fresher, healthier air with more pleasant smells with the Petoneer Smart Odor Eliminator. Equipped with a smart IR sensor - it instantly knows when to act. Charging via micro USB does not take much time and is very convenient. Working in 2 modes makes it easy to adjust the device to your needs. The air freshener's field of action is 360° - so you can be sure that it will perfectly clean the air in the entire room. Get rid of bacteria and forget about unpleasant smell thanks to Petoneer!

### Modern solutions

Discover the possibilities of ozone. The decomposition process of active oxygen neutralizes and decomposes odor molecules, inhibits the growth of bacteria and keeps the air clean and fresh. So you can say goodbye to traditional filters, which instead of eliminating odors, only mask them. Ozone allows you to maintain better air quality in your home for a longer period of time. Unpleasant smells coming from your cat's litter box will only remain an unpleasant memory.

### 2 modes of operation - innovative ventilation

The device can operate in 2 modes - choose the one that suits you better. The first mode includes a timer and allows ozone to be

discharged at specific intervals. The second mode is based on an infrared sensor. When the special sensor detects movement, the ozone is released after 1 minute. Moreover, the special design of the canister allows the active oxygen molecules to be released quickly with the air flow. A 3-way ventilation is responsible for this. Thanks to this, the operating range of the device could be significantly increased.

#### Intelligent sensor

The device is equipped with an intelligent IR sensor, which allows the air freshener to run automatically whenever it is needed. It registers when your pet uses the litter box. So, the freshening process can start as soon as the cat takes care of its needs and leaves. This ensures that the bad smell is eliminated even before you even have time to smell it.

#### Powerful battery

The odor eliminator is equipped with a high-quality lithium battery with a capacity of 2200 mAh. Thanks to this one charge allows you to work with the device for up to four days. Forget about tangled cables that are easy to trip over. You also do not have to depend on the presence of an outlet to place the device. Wireless operation gives you the freedom you dream of.

#### Easy installation

The device is extremely compact, so you can place it almost anywhere you want - even in your cat's litter box. Thanks to its magnetic, self-adhesive attachment, its installation is extremely simple and intuitive. Simply remove the protective sticker and attach the Smart Odor Eliminator to the desired location.

#### Included

Petoner Smart Odor Eliminator USB Cable Metal plate sticker and foam sticker Brand Petoneer Model AOE010 Dimensions 99.6 mm x 51.7 mm x 41.5 mm Weight 153 g Power supply Lithium battery 2200 mAh Work time 4 days Interface Micro USB Material ABS Power input DC 5V
