Ref: 6973734202290

FairyWill FW-E11 sonic toothbrush with tip set and FairyWill FW-5020E irrigator

Now you can take even better care of your oral hygiene. The E11 sonic toothbrush in this package vibrates at up to 40,000 vibrations per minute and effectively cleans even those areas that ordinary toothbrushes can't reach. It offers 5 modes and a smart timer. The kit also includes the 5020E irrigator, which effectively removes up to 99.99% of debris. You can choose from 3 modes and its water tank has a capacity of 300ml. In the package you will also find 4 interchangeable tips for the toothbrush and 4 nozzles for the irrigator.

Fine cleaning

The 5020E irrigator effectively eliminates up to 99.99% of food debris and plaque while providing a deep gum massage and improving circulation. Not only does this clean your teeth thoroughly, it also helps to improve their condition. The enhanced pulsating technology allows the 30-100PSI water jet to reach even areas of the mouth that ordinary toothbrushes cannot reach.

3 modes of operation

Adjust the operation of the irrigator to your needs. The device offers 3 cleaning modes. Clean mode is ideal for everyday use. The water pulses at 1800 oscillations per minute to effectively clean your mouth. Soft mode is suitable for beginners and people with sensitive teeth. The frequency of 1400 oscillations per minute enables you to clean your mouth thoroughly yet gently. The Massage mode (1400-1800 vibrations per minute) will thoroughly clean your teeth while providing a gum massage.

Practical water tank

The irrigator is equipped with a large 300ml water tank. This is enough to allow you to brush your teeth thoroughly without having to refill it. When needed, you can easily clean it, thus preventing the proliferation of bacteria. What's more, thanks to its improved design, the tank doesn't leak and filling it with water is child's play and quick.

Long working time

The cordless design of the irrigator gives you almost unlimited freedom. The device is equipped with a durable lithium battery that allows it to run for up to 21 days on a single charge. To charge it, simply plug it into a charger, powerbank or even your laptop using the included USB cable. After about 4 hours it will be fully operational again!

Lightweight and portable

The FairyWill 5020E irrigator is incredibly lightweight and portable. Thanks to its ergonomic design, it fits perfectly in your hand and provides comfort. If you want, you can easily take it with you on vacation - it will not take up too much space in your bag or suitcase. It will also not be a big burden.

Sonic toothbrush

Do away with ordinary, ineffective toothbrushes. The included E11 toothbrush generates high-frequency sonic vibrations to help you clean your teeth thoroughly and effectively in a short period of time. It removes up to 100% of stains, food debris and other contaminants. Just use it for about 14 days to enjoy visibly healthier teeth and gums. Taking care of your oral hygiene has never been easier!

5 modes

What makes a toothbrush that can perfectly meet the different needs of users? The device allows you to choose from 5 modes, so you can easily adapt it to your requirements. The Sensitive mode is suitable for users who have sensitive teeth. Clean is perfect for everyday use. Massage provides a gentle gum massage. White will make it easier to whiten your teeth and Polish them.

Intelligent timer

Make sure you brush your teeth for exactly the right length of time. The E11 toothbrush is equipped with an intelligent timer that makes it easy for you to use. Every 30 seconds a short pause will remind you to change the area you're brushing, and after 2 minutes the device will stop working. All this will allow you to brush your teeth thoroughly and help you develop good habits.

Fast charging

Enjoy a long toothbrush runtime. The E11 has a built-in rechargeable battery that lasts up to 30 days on a full charge. It only takes about 2 hours to recharge. This is thanks to its modern fast-charging technology. In the package you will also find a USB cable, with which you can connect the brush to a power source.

Take it on your next trip

You don't have to give up the ability to brush your teeth thoroughly when you go on vacation or travel for a few days. The toothbrush is lightweight and portable enough to go almost anywhere, so it won't take up much space in your bag or suitcase. It is also compatible with 110-240V, so you can easily charge it also abroad.

Waterproof

Use your toothbrush and irrigator in the bath or shower without worry. Both devices are IPX7 waterproof, which means splashing or flooding is no threat to them. You can also safely wash them under running water. This will not only prolong their life and keep them in excellent condition, but also avoid the proliferation of bacteria. The irrigator also has double seals that effectively prevent possible leaks.

Interchangeable nozzles and tips included

The set includes as many as 4 replaceable toothbrush tips. DuPont W-shaped nylon bristles adhere perfectly to your teeth and gums, ensuring thorough cleaning even in hard-to-reach areas. And you don't have to worry about forgetting to change the tip. When the time is right, the blue bristles will fade to remind you. The kit also includes 4 nozzles for the irrigator. They are all relatively long and rotate 360°. Note: we recommend replacing the nozzle at least once every 3 months or so.
