USB Cable for Lightning BlitzWolf MF-10 Pro, MFI, 20W, 1.8m (red)

Ref: 5907489609302

BlitzWolf MF-10 Pro USB to Lightning cable

The USB Lightning cable allows you to charge your devices quickly, thanks to Power Delivery technology. Thanks to fast data transmission, you will quickly transfer the necessary documents. The cable is made of high-quality materials, resistant to damage and breakage.

Fast data transmission

BlitzWolf cable allows lightning-fast transmission of transferred data - up to 480 Mbps. Among other things, you will be able to send photos or documents to another device in no time.

Fast charging

The USB cable is equipped with a certified MFi chip. This means that it is fully safe for your Apple devices. What's more, it supports Power Delivery fast charging technology, so your smartphone will be up and running again in just a moment.

High quality

The cable's multi-layer coating and high-quality materials make it durable and resistant to any damage. In addition, the durable nylon braid provides additional protection against accidental damage or breakage.
