

Rojeco 3 In 1 Interactive Cat Toys

Rojeco 3 In 1 Interactive Cat Toys

Ref: 6975116293414

Rojeco 3-in-1 interactive cat toy

Encourage your cat to be physically active and provide excellent entertainment by opting for Rojeco's proposal. The 3-in-1 interactive toy offers laser play, balls, as well as a stick that is finished with feathers. All these elements are universally loved by four-legged dogs. The top of the device rotates 360° and offers up to 3 levels of speed. In addition, it automatically shuts off after 30 minutes, and one charge allows for 5 hours of use.

Fun and fitness care

The Rojeco 3-in-1 interactive cat toy offers a laser whose angle of incidence you can adjust from 15° to 25° with a dedicated switch. With it, your furry friend will increase his physical activity while having fun. It's also a form of intellectual stimulation for your pet as it plans how to catch the beam of light. Bet on fun that develops!

A chance to use your cat's instincts

Cats are natural hunters, so Rojeco provides entertainment that will allow them to use their talent. The interactive toy is equipped with a stick to which feathers are stably attached. They rotate unexpectedly in a range of 360°, which encourages animals to play. In the set you will find three types of feathers, which you can freely exchange.

Developing dexterity

Rojeco knows how to combine entertainment with education. The interactive toy also consists of rotating, small balls that your cat is sure to love. As you watch your pet try to catch the balls, you'll notice how his dexterity develops.

Three levels of speed

Choose how fast your Rojeco toy should spin. It offers three speed modes, including Slow, Fast and Random. This allows your cat to enjoy a different kind of entertainment every day!

Automatic shut-off

Need to leave the house and your cat feels like playing? No problem! You can start the Rojeco interactive toy and leave the house without any worries. The device will automatically turn off after 30 minutes of operation.

Long working time

Thanks to the fact that the Rojeco toy is equipped with a powerful 1200 mAh battery, one charge is enough to keep it running for up to 5 hours. The time it takes to renew its energy is about 3 to 4 hours.
