

Multifunction flashlight Superfire G19, 200lm, USB

Multifunction flashlight Superfire G19, 200lm, USB

Ref: 6956362931534

Superfire G19 - flashlight for special tasks

The functional Superfire G19 flashlight is distinguished by its high brightness thanks to 200 lumens, 200-meter light range and 800-capacity battery. With 5 light modes and the ability to use it in different ways, you can easily adjust it to your needs. Its light weight of 104 g and compact size make using its functionality easy and enjoyable. An additional COB lamp placed on the side offers even more possibilities.

5 light modes - plenty of applications

Choose from 5 available light modes to customize the flashlight to your needs. The main lamp can shine strongly or weakly. The side COB emits light in white, ideal for reading, for example, as well as red - statically or in SOS mode. Operation of the device is extremely simple - only one button is needed for this. All this makes the G19 worth having with you at all times - it will be perfect in many scenarios.

Free adjustment - even more flexibility

The device also offers the ability to adjust the position of the main lamp within 90°. This simple but useful feature greatly enhances the use of the G19. You can also quickly and easily adjust the angle of the flashlight relative to its base. Adjust the device to your needs and current situation to enjoy optimal illumination and convenience anytime, anywhere.

Enjoy long-lasting performance

The device is equipped with a powerful rechargeable battery. It provides up to 2-5 hours of flashlight operation! This is enough for it to perfectly fulfill its task in almost any situation. The G19 will never let you down - it can provide an additional or emergency source of light whenever you need it.

Free yourself from cables

The flashlight is equipped with a USB plug for convenient charging of the device. No longer do you have to carry an extra cable with you at all times. Just plug the G19 directly into the charger. The Superfire flashlight is as compact and functional as possible.

Enjoy the freedom of operation

What makes working with the G19 even easier is the strong magnetic tip. With it, you can easily attach the flashlight to a suitable surface and free your hands if necessary. This convenient and practical solution will give you even more freedom of action when, for example, working in a home workshop or repairing a car.

Attach it to your clothes

The flashlight is also equipped with a sturdy clip that enhances its use. With it, you can easily attach it to your backpack, shirt or jacket. This way you can enjoy the freedom of using it with the right light for the situation.

Practical head flashlight

A special headband with an adapter allows you to use the G19 also as a headlamp. The device is thus extremely versatile and gives you countless possibilities. Used in this way, it will make it easier for you, among other things, to repair your car at night or to navigate after dark in demanding terrain - for example, in the woods or mountains.

Always with you

The flashlight is extremely compact - it measures only 140x21 x 21 mm and weighs 104 g. This makes it easy to have it always at hand. You can easily fit it into your backpack or purse and use it whenever you need it. Such a practical and portable device is worth having with you at all times - you never know when it will come in handy! Its additional advantage is waterproof. So you can use it in almost any conditions - even rain will not harm it.

Plenty of applications

The possible applications of Superfire G19 are almost countless. This functional device will come in handy not only during night expeditions. It will also prove useful on a camping trip or during a rescue operation. It will also help you with DIY or renovation. There is also nothing to prevent you from using it every day, at home - when you read, watch TV or work at the computer.
