

Headlight Superfire HL65, 120lm, USB-C

Headlight Superfire HL65, 120lm, USB-C

Ref: 6956362996434

Superfire HL65 headlamp flashlight

Choose the Superfire flashlight and ensure your safety during evening hikes. The HL65 offers 5 brightness levels and adjusts from 0° to 60°. Its compact and lightweight design is responsible for its comfort, and the motion sensor makes it easy to operate - just bring your hand close to the flashlight to turn it on.

Multiple uses

You will use the HL65 in a variety of situations. It will be perfect for car repairs, evening hikes, running, or bike rides. What's more, it will come in handy when climbing or DIY.

Customize its operation to suit your needs

The flashlight is equipped with 5 operating modes, so you can adjust its operation to your own needs. Choose between high/low COB brightness, high/low XD brightness or COB/XD strobe. The COB light has a range of 10m, while the XD light has a range of 30m. You can also adjust the angle of the light up to 60°.

Lightweight and compact

Another advantage of the Superfire flashlight is its lightweight and compact design - the HL65 weighs just 70 g. Therefore, you can carry

it for a long time without feeling uncomfortable. In addition, the high-quality band is adjustable and ensures comfortable use. You can fold the flashlight at any time and store it conveniently.

Durable

The Superfire flashlight is made of ABS plastic, making it durable and resistant to damage. Moreover, it is protected by IPX4 water resistance and drops up to 1m. So you can use it in a variety of weather conditions. Snow, rain, these and other factors pose no threat to the HL65.
