

Bicycle Phone Holder Rockbros 699-BR (black and red)

Bicycle Phone Holder Rockbros 699-BR (black and red)

Ref: 5905316146068

Rockbros 699-BR phone holder for bikes

The bike holder allows you to use your smartphone comfortably and does not block access to the buttons. Thanks to special safety features, it ensures the stability and safety of your device, and its wide compatibility means it will fit most phone models. It is suitable for bicycle handlebars with a diameter of 22.2 - 31.8 mm and you will have no problem fitting it.

Security for your smartphone

The holder is equipped with 5 arms, so you can be sure that your smartphone will not be damaged. In addition, the non-slip silicone straps prevent your device from moving or getting scratched and the additional reinforcement provides stability, so you don't have to worry about your smartphone falling out when driving on bumpy roads.

Thoughtful design

The product is made from a CNC-processed aluminium alloy, which translates into light weight, strength and high resistance to damage such as oxidation. What's more, it fits smartphones whose width does not exceed 95 mm. Furthermore, you can mount the holder on the handlebars of bicycles or motorbikes with a diameter in the range 22.2 - 31.8 mm. In addition, it offers an adjustment angle of 90/180/270/360°.
