

Wrist strap Telesin for sports cameras (GP-WFS-220)

Ref: 6972860174525

Wrist strap Telesin for sports cameras (GP-WFS-220)

Telesin GP-WFS-220 wrist strap for sports cameras

Designed for sports cameras, the Telesin wrist strap allows you to record unique videos, for example while diving or cycling. 360° rotatable - allows you to get a unique perspective. Lightweight and comfortable - provides the comfort you dream of.

Compatible with a wide range of devices

The accessory is distinguished by its wide compatibility. You can successfully mount GoPro Hero 8, 7, 6, 5, 4, 3, 3+ and 2. It can also be used with other sports cameras.

Record from diverse perspectives

The 360° rotation is an invaluable advantage of the product. It allows you to adjust the recording direction to your expectations and create a video completely in line with your vision. Position the camera the way you want, get a unique perspective and surprise your viewers with an original video!

Exceptional ease of use

The strap weighs only 40g and is incredibly comfortable to wear - almost as comfortable as a regular watch. Using this practical accessory, you will free your hands and create spectacular shots while hiking, skiing or swimming. Moreover, the Velcro closure is very

durable and practical - it allows you to adjust the length of the strap to the circumference of your wrist.
