Bicycle mount Telesin for sports cameras 360° (DJ-HBM-001)

Ref: 6972860170046

Bicycle mount for sports cameras Telesin

Do you like to record videos during bike rides? The Telesin mount will help you capture the best moments! Thanks to the 360° rotation feature, you can record from different perspectives and the adjustable clamp allows you to mount the DJ-HBM-001 not only on the handlebars of your bike, but also on a motorcycle. The sturdy and well-thought-out design will ensure stability and prevent the mount from moving. Thanks to the wide compatibility, the accessory fits various types of sports cameras and smartphones. Check out what else the DJ-HBM-001 hides!

Installation in a few steps

Both the installation and removal process of the Telesin mount is quick and easy, and you won't need any additional tools. What's more, the product has a universal thread that allows you to mount your GoPro camera. Simply loosen the clamp knob and place the DJ-HBM-001 in the desired location. If you want to remove the mount from the handlebars, loosen the clamp knob again.

Suitable for bicycle and motorcycle

Are you worried that the accessory won't fit your vehicle? Don't be! Telesin product is adapted not only to the handlebars of a bicycle, but also a motorcycle. Thanks to the adjustment function, you can use the attachment for handlebars with a diameter of 20 mm to 32 mm. Record your special moments and enjoy the freedom of use that the DJ-HBM-001 gives you!

Comfort of use

Thanks to the clever design, you can record videos from different perspectives. The mount has a 360° rotation function, which allows for even greater comfort of use. You will not miss any shot anymore!

Wide compatibility

Telesin has made sure that the accessory is available to as many users as possible. The list of devices compatible with the DJ-HBM-001 mount includes phones and sports cameras from GoPro, insta360, Yi, Osmo Action, SARGO and many more.

With attention to detail

The mount is designed to be durable and safe to use. The material used to make the DJ-HBM-001 is not only resistant to damage, but also environmentally friendly and recyclable. The 304 stainless steel screws are resistant to corrosion and stand out for their long service life. Anti-slip TPR caps prevent the mount from moving and resist wear and tear.
