Earphones Soundpeats Sonic (Grey)

Ref: 6941213644985

### Soundpeats Sonic TWS Earphones

If you like bass-rich sound, then the Sonic earphones will definitely appeal to you. Equipped with the aptX-adaptive audio codec, they deliver crystal clear sound full of detail. The high-quality chip enables fast and stable connection and lower power consumption. The charging case allows the earphones to run for up to 35 hours, and you can renew their power in about 1.5 hours with the included USB-C cable. In addition, low latency provides even better gameplay, and the ergonomic design offers long-lasting comfort.

### Perfect sound, better call quality

To provide you with high-quality sound, Sonic earphones use low frequency enhancement technology and the latest audio decoding technology (aptX). With the CVC noise cancellation feature, you can talk freely on the phone without worrying about interference.

### Fast and stable connection

The earphones are equipped with Bluetooth 5.2 and QCC3040 chip, which translates to higher connection quality and lower power consumption. The accessory is compatible with all Bluetooth-enabled devices, including version 4.0. Additionally, the Sonic model features mono and stereo modes, so you can use two earphones at the same time or just one.

### Long runtime, fast charging

Soundpeats earphones deliver up to 15 hours of playback on a single charge. And the charging case extends the runtime to 35 hours. What's more, the USB-C cable guarantees fast charging, so you'll be back in action in about 1.5 hours. The LED indicator inside the case will let you know the battery status.

#### TrueWireless Mirroring Technology

Using TrueWireless Mirroring technology increases connection stability and reduces interference in harsh environments. Gaming mode provides low latency to enhance dynamic gaming experience. To activate the mode, press the button on the left handset three times.

#### Comfort of use

The earphones are equipped with buttons, for more convenient and precise control. Just press the earphone to adjust the volume, stop playback, answer the phone, etc. Plus, the ergonomic design provides long-lasting comfort.
