USB to USB-C cable Mcdodo CA-5280 LED, 1.8m (black)

Ref: 6921002652827

Mcdodo CA-5282 LED angle USB to USB-C cable, 1.8m (black)

Enjoy fast charging (2A) and comfort with the Mcdodo CA-5282. The cable is distinguished by its angled design, which allows you to comfortably use your smartphone while charging. With its help you can simultaneously charge your device and transfer files. In addition, solid workmanship ensures that the product is durable and resistant to damage.

Safe charging

The cable is designed to make its use completely safe. It automatically reduces the amperage at the end of charging the device, preventing damage to the device. It also ensures stable charging and extends the life of the product. What's more, it protects against overheating, and the smart chip ensures fast and safe charging at the same time.

Fast data transfer

Another advantage of the Mcdodo cable is the ability to transfer data and charge a smartphone simultaneously. The product offers a data transfer rate of 480 Mbps, so you don't have to wait indefinitely for your files to copy.

No limitations

Mcdodo offers the freedom of use you need. The CA-5282 cable features an angled design, so you don't have to sacrifice gameplay while your phone is charging. What's more, the USB-C port allows you to connect most smartphone models to it.

Rugged design

Another advantage of the Mcdodo CA-5282 is its sturdy design. The nylon braid ensures durability and prevents the cable from tangling. What's more, the product is pleasant to the touch, and the reinforced ends are resistant to bending and cracking. In addition, the LED indicator makes it more convenient to use after dark. You can also choose between 2 operating modes: day and night.
