Travel Adapter McDodo CP-4120 2.1A Fast Charging

McDodo CP-4120 2.1A FC travel adapter

You no longer need to buy several chargers when going on vacation to another country! The McDodo Travel Adapter will allow you to connect your devices to power anywhere in the world. The accessory is equipped with plugs and sockets of different standards (AU, UK, US/CN and EU), so you can power your equipment in more than 200 countries. It also has 2 USB-A ports, and its maximum power output is 1380W. Thanks to its compact design, you can easily pack it in your suitcase, and a number of safety features guarantee safe use.

The perfect travel companion

From now on, traveling will become even easier! The adapter is equipped with a universal socket and up to 5 different plugs - AU, UK, US/CN and EU, so you can easily use electrical devices in many countries. Whether you're in Australia, the UK, China, the US or Europe, the McDodo adapter will make sure you always have access to power.

Charge 2 devices at the same time

Don't waste time waiting for one device to be charged to plug in another! The McDodo adapter also has 2 USB-A ports that allow you to power two devices at the same time with 2.1A. You no longer have to choose which device to charge first - you can charge your smartphone as well as your tablet, smartwatch, powerbank and more!

Safety first

Forget about limitations! The maximum load of the adapter is as high as 1380W, which means you can connect even more demanding electrical appliances, such as a hair dryer or iron, without worrying about overloading. What's more, thanks to a number of protections, your equipment is reliably protected against overheating, overvoltage, overcharging, over-discharge or short circuits, among other things. So you can be sure that your devices are in safe hands!

Lightweight and handy

The McDodo adapter was designed with travelers in mind - it is not only compact, but also lightweight, which makes it ideal for travel. You can easily pack it in your bag, backpack or suitcase. It has a practical button that will help you eject the plug of your choice - just press it and slide it! It is also equipped with a special child safety device, so you don't have to worry about the safety of your kids.
