

## Mcdodo CA-2690 OTG 2in1 Converter Lightning to USB 3.0

Ref: 6921002626903

Mcdodo CA-2690 OTG 2in1 Converter Lightning to USB 3.0

Adaptér OTG 2v1 USB 3.0 do Lightning Mcdodo CA-2690

Enhance the capabilities of your iPhone or iPad with the Mcdodo OTG adapter. It allows you to connect various peripherals such as a hard drive, keyboard, mouse, card reader, and more to your selected device. It also enables simultaneous data transfer and charging with a current of up to 2.4A, thanks to its additional port. It stands out with its durable yet lightweight construction, making it convenient to carry with you at all times.

### Multiple Possibilities

The Lightning-enabled OTG adapter allows you to connect a wide range of devices to your iPad or iPhone. You can comfortably use external hard drives to manage files, watch movies on your smartphone, or browse through photos. The CA-2690 model also allows you to connect a mouse or keyboard, making your work more convenient. Using the adapter is exceptionally straightforward—simply plug it into your device. No need to waste time on complex configurations!

### Well-Thought-Out Design

The adapter is crafted from top-quality materials, ensuring its high durability and resistance to damage. The reinforced cable with a nylon braid offers exceptional durability, while the zinc alloy components provide additional protection. Moreover, the most delicate parts of the adapter are specially safeguarded. The adapter also features a built-in intelligent chip, guaranteeing stable transmission and

efficient performance.
