

Charger GaN 33W Mcdodo CH-0921 USB-C, USB-A (black)

Ref: 6921002609210

Charger GaN 33W Mcdodo CH-0921 USB-C, USB-A (black)

GaN 33W mains charger Mcdodo CH-0921 USB-C, USB-A (black).

Introducing the Mcdodo CH-0921 power charger, which combines modern technology and performance. With two outputs - USB-C and USB-A - it provides charging with a maximum power of 33W, allowing you to quickly charge two different devices at the same time.

Versatile use

The Mcdodo charger's unlimited capabilities include a wide range of input voltages from 100 to 260V, making it an ideal companion both at home and on international travel. The charger is compatible with the latest fast charging protocols, so your devices will be charged at an express pace.

Advanced GaN technology

The use of durable and fire-resistant PC (polycarbonate) combined with innovative GaN technology ensures not only performance, but also safety in use. With GaN, the charger not only runs cooler, but is also smaller and lighter than traditional chargers.

Intelligent power management

USB-C output with PPS (Programmable Power Supply) and USB-A offer flexible solutions to suit the needs of different devices. Whether you're charging your phone, tablet or other USB-C devices, you can rely on intelligent power distribution that adapts to the specifications

of the connected equipment.

Design and mobility

The Mcdodo CH-0921 features a minimalist design and compact dimensions, making it a charger you can take anywhere. The black casing will add elegance to any space, while being extremely practical for everyday use.
