### Puluz Shutterless tent 23 cm LED PU5023

The Puluz PU5023 shadowless tent with LED lighting will find use in taking professional photographs of small subjects. The CRI Ra82 coefficient means that the photographed objects look extremely natural, and the possibility of adjusting light parameters and interchangeable colour backgrounds available in the set allow to perfectly emphasise the character of the selected objects and bring out their beauty. The tent can become an indispensable tool for photographers, influencers or online retailers.

### The perfect backdrop for taking photos

This compact tent is perfect for photographing small items such as watches, handmade jewellery, toys or small gadgets, for example. It comes with interchangeable backgrounds in 6 colours - white, black, green, blue, yellow and red. So you can successfully select the right one for your chosen subject. Create professional photos of the items you produce or sell and present them to potential customers.

### Adjustable LED lighting

The marquee is equipped with an LED light consisting of 64 high-quality light beads. The high colour rendering index makes the objects photographed in its light look natural and impress with the clarity of the colours. You can also adjust the brightness of the lighting according to your expectations. You can also choose between white, soft and warm light.

### Functional design

Thanks to the clever design of the tent, you can take photos from different angles also from above, which is made possible by a special opening. The product is powered by a USB cable. This means that you can connect it not only to a charger, but also to a powerbank or even a computer or laptop. The dimensions of 23 x 23 x 24 cm and the fact that the tent can be folded up quickly make transporting it fabulously easy and convenient.
