

ESC Hobbywing Xerun XR10 PRO Stock Spec 1S 80 A

ESC Hobbywing Xerun XR10 PRO Stock Spec 1S 80 A

Ref: 6938994408431

Hobbywing Xerun XR10 PRO Stock Spec 1S 80 A Regulator

Specially designed for the Stock 1S racing class : Reliable hardware combined with powerful software (includes 5 useful profiles) provides an ideal solution for powering 1/12 race cars. Powerful built-in BEC : with a maximum power of 6A and voltage regulation between 6V and 7.4V allows users to use different, servos and receivers (without connecting an additional battery).

Remote control capability

Adjustable PWM throttle and brake frequencies: It is possible to independently adjust the throttle and brakes for PWM frequency guarantees precise and accurate control. Remote wireless programming / update / data reading is possible with the optional (not included) "WiFi Express" module. With it, we can via smartphone: iPhone or Android (with HOBBYWING WiFi Link software), the user can remotely set program parameters, perform software updates and check ESC data without leaving the workstation.

Electronic Switch

Built-in Electronic Switch: The internal electronic switch has a lifetime of more than 50,000 on/off cycles. It completely solves problems like accidental shutdown, corrosion of contact points and others that conventional mechanical switches face.

Data logging

Data logging capability: This ESC has a data logging function, it logs maximum ESC and motor temperatures, maximum motor RPM and etc. in real time, and allows users to check this data through a programming card or via a WiFi module after each use.

- Manufacturer
- Hobbywing
- Model
- HW30112751
- Continuous / peak current
- 80A / 380A
- Input voltage
- 1S Lipo / 3-4 NiMH cells
- BEC output
- 6V/7.4V@3A
- Application
- Stock 1S class 1/10 and Racing 1/12 on-road; KV / T: $\geq 10.5T$, Motor size 3650
- Wires
- Black-14AWG-200 mm
- Connectors
- none
- ESC programming
- Programming card or WiFi module (optional)
- Software update
- Yes
- Dimensions
- 31.6x25.8x16.2 mm
- Weight
- 23.5 g (without cables)
