

Gaming Microphone Havit GK58B

Gaming Microphone Havit GK58B

Ref: 6939119074777

Havit GK58B gaming microphone

Talk to other players in an online game, record podcasts, stream or create YouTube videos. The Havit GK58B omnidirectional gaming microphone picks up sounds perfectly, and the adjustable design makes it easy to adjust to your needs. The device supports plug&play and features colorful backlighting for a unique touch.

Fabulous ease of use

Forget about complicated device configuration. Thanks to the plug&play system, all you have to do is connect the microphone to your computer and select it as an input device in the system settings. That's all it takes to start recording a podcast, exchange a few comments with other gamers or host a live broadcast!

Great sound quality

With Havit you can be sure that everyone will hear you perfectly. The GK58B omni-directional microphone reliably captures your voice and guarantees crystal clear, crisp, natural sound. Chat freely with friends on Discord, record the next podcast episode, or plan tactics for the next game!

Adjustable design

Adjust the microphone so that it is comfortable for you and can optimally record your voice. The GK58B features an adjustable design that will meet even the most diverse user expectations. Customize it to your needs and feel free to record a YouTube video or play your next duel!
