Flashlight Superfire S33-A

Superfire brand flashlight is compact and lightweight, so you can hide it even in your pocket. It will be irreplaceable in various situations. It will be perfect for camping, workshop, hiking, etc. It has 4 operating modes and IP43 water resistance. It is also resistant to wear and tear and falls from 1 m. You can renew its energy with a USB cable and the indicator will let you know when the battery is fully charged.

Intelligent charging indicator

With the smart charging indicator, you can check the charging status of your device at any time. Red indicates that the accessory is charging, and blue indicates a charged battery. In this way, you will know in time when the flashlight will be ready for use again and avoid overcharging it.

4 operation modes

The flashlight has 4 modes that you can use depending on your needs. Choose between low light, SOS, 100% brightness or strobe.

Minimalistic and durable

The device was made of high quality ABS material, with attention to detail. It presents itself uniquely and elegantly, at the same time being resistant to minor mechanical damage. It was made in harmony with the environment. It is light and compact, so you can always

have it with you. In addition, the flashlight has an opening for a lanyard (not included), which you can attach to protect your accessory.
