### Turkish Coffee Machine HiBREW

Do you like the characteristic, strong taste of Turkish coffee? The small coffee maker by HiBREW will prove indispensable in your kitchen! With its help you can easily prepare a hot, aromatic drink. The stainless steel heating element allows for quick heating and a special LED indicator shows the status of the machine. The coffee maker also has a lightweight, removable coffee jug.

### Aromatic Turkish coffee

Traditional Turkish coffee has been known around the world for hundreds of years. It is distinguished by its distinctive, rich flavor and excellent aroma. The HiBREW brand coffee maker makes it easy to prepare Turkish-style coffee at home! The machine heats up very quickly and, thanks to its features, brings out the best from the beans. You won't have to wait too long for your mug of stimulating, aromatic drink!

### Easy to use

The coffee machine is extremely easy to operate. Just pour the coffee into the jug and then fill it with water, making sure not to exceed the MAX line. Then place the jug in the machine, plug it in and press the button to start it. When the coffee is ready, the machine will automatically stop and the LED indicator will turn off. Moreover, a special probe monitors the water level.

### Removable pot

Drinking Turkish coffee has just become more enjoyable. The machine comes with a removable 250 ml jug. You can, for example, put it on the table and reach for it at any time to refill your hot beverage. The convenient handle makes it comfortable to use. The jug is also very lightweight and durable at the same time. It will serve you well for a long time!
