Havit MS1026 Gaming Mouse

Give yourself the advantage in your next game. The Havit MS1026 gaming mouse delivers unparalleled smoothness and adjustable resolution from 800-6400 DPI. It is equipped with 7 buttons and thanks to its ergonomic design it fits perfectly in your hand. It is also distinguished by colorful RGB backlighting in 16 million colors and with 7 available modes.

Built for dynamic gaming

The MS1026 mouse will give you the smoothness and precision you dream of. It offers 6 levels of resolution adjustment in the range of 800 / 1600 / 2400 / 3200 / 4800 / 6400 DPI - each value is indicated by a different backlight color. The device also has an advanced positioning system. All this will allow you to easily track down your opponent and send an accurate projectile towards him.

Ergonomic design

Do you like to spend long hours playing? Take care of your comfort! The mouse has an ergonomic design that fits perfectly in your hand, does not strain your wrists and allows you to play without tiring. What's more, the non-slip surface ensures that the device will not slip out of your hand - even during extremely exciting gameplay.

Colorful backlighting

Create a unique atmosphere in your gaming zone. The mouse features flashing backlighting in 16 million colors. You can also customize its style using dedicated software. Up to 7 backlight modes are available - Breathing, Colorful Streaming, Rainbow, Floe, Waltz and 4-Seasons. Try out all the options and see which one suits you best!
