

Orico 2.5" HDD / SSD Enclosure, 5 Gbps, USB 3.0 (Blue)

Ref: 6941788854529

Orico 2.5" HDD / SSD Enclosure, 5 Gbps, USB 3.0 (Blue)

Orico 25PW1-U3-BL-EP 2.5" HDD / SSD enclosure

The Orico 25PW1-U3-BL-EP drive enclosure provides transmission speeds of up to 5Gbps and is equipped with a USB 3.0 interface. You can easily connect it to your laptop or computer. With its help, for example, you can conveniently organize photos or watch videos. The device is distinguished by its wide compatibility and supports 2.5" SATA HDD / SSD with a maximum capacity of 4TB and thickness from 7mm to 9.5mm.

Durable design

High-quality ABS plastic was used for the case, so it is not only extremely durable, but also protects the drive inside from damage. It has also been equipped with a special shock-absorbing insert. Noteworthy is also a small LED indicator, which will provide you with information on the operating status of the device.

Impressive speed

You no longer have to wait too long for all the files you need to find their destination. The case supports the USB3.0 standard, which offers transmission speeds of up to 5Gbps (up to 490Mbps). The device also supports UASP protocols and TRIM function, so it can provide fast, stable and secure transfer. All this will allow you to copy selected photos, videos, documents or music files in no time.

Enough memory space

Don't worry about running out of space to store your files. The case is compatible with drives of up to 4TB! This means that you can store a lot of photos, presentations, documents, music or videos without any problems. The possibilities are truly vast!

Intelligent operation

The case stands out not only for its efficient, but also for its safe and intelligent operation. After 10 minutes of inactivity, the device automatically enters sleep mode, thus protecting the drive placed inside from damage and extending its life. The solution used also avoids possible data loss.

Wide compatibility - trouble-free installation

The product perfectly fits 2.5" SATA HDD and SSD drives, whose thickness ranges from 7mm to 9.5mm. It is also compatible with Windows, Mac OS and Linux operating systems. What's more, thanks to the Plug&Play system, you don't have to worry about complicated, time-consuming configuration. At the same time, the case is very easy to install - no tools are required.
