Baseus Magnetic 10000mAh 20W Powerbank (Purple)

Baseus PPCX080005 is a powerbank with wireless charging function. You can also use it in an upright position thanks to a special stand. It is compatible with the latest models of Apple phones, and its capacity is 10000 mAh. It also features a compact design and is very handy. It meets international aviation standards, so you can take it on almost any trip. Enjoy a reliable device that will charge your phone in no time.

Charge as you like

Horizontal and vertical charging - how you're more comfortable! The stand holds your device in a vertical or horizontal position to make using your phone convenient while charging wirelessly. This way you will charge your phone with 15 watts of power. If you're in a big hurry, use wired charging, with 20 watts of power, and your device will charge to 50% in just about 30 minutes. The total input power is 18 W, so the powerbank charges fully in about 3-4 hours.

Use comfortably and safely

A strong magnet protects the device from falling. In addition, the small size of the powerbank does not obstruct the camera while charging. Your phone charges while you use all its options without restrictions! The powerbank also has a number of safety features such as protection against overheating, overcharging or over-discharge, protection against over-current or short circuit, so you can be sure

that your phone is completely safe.

Power and quality in a small size

The device's instant response provides full comfort of use, and its small size (its thickness is about 20 mm) hides a capacity of as much as 10000 mAh! In addition, it is compatible with the latest iPhone models - 14/13/12. Powerbank Baseus PPCX080005 is made of ABS+PC materials, which makes it resistant to scratches and fingerprints.
