

Power strip with 2 AC sockets, 3x USB, Orico, 1.4m, 2500W

Ref: 6936761853545

Power strip with 2 AC sockets, 3x USB, Orico, 1.4m, 2500W

Power strip with 2 AC outlets and 3x USB.

Bet on convenience. Orico's power strip is equipped with 2 AC outlets and 3 USB ports, so you can power up to 5 devices at once. It allows fast charging at 2.4A and guarantees safe use. It is distinguished by its modern design and compact design. You can easily mount it on the wall, and the 1.4 m cable will provide you with unparalleled comfort during use.

Fast charging

You no longer have to wait indefinitely to charge your devices. The power strip is equipped with 3 USB-A output ports that offer 2.4A. As a result, in just a few moments you will renew the energy of, for example, your smartphone, tablet and headphones at the same time. There are also 2 AC outlets at your disposal, to which you can connect a lamp, laptop or monitor, among others.

Unique design

The Orico power strip will fit perfectly into modern interiors. The wooden design of the device makes it an interesting addition to your home. Thanks to its compact design, you can easily put it in your bag or suitcase and take it wherever you want. What's more, you can easily mount the strip on the wall to save space. In addition, it has a special LED that indicates the status of the device.

For the sake of safety

High-quality materials have been used to make the strip, which are resistant to fire. In addition, outlets with internal safety covers provide additional protection. The 1.4 m cable will give you almost unlimited possibilities and increase the comfort of use.
