

M.2 SATA/NVMe external drive enclosure, Orico PWDM2-G2-BK-EP

Ref: 6941788828254

M.2 SATA/NVMe external drive enclosure, Orico PWDM2-G2-BK-EP, USB-C, 10Gbps (black)

M.2 SATA/NVMe external drive enclosure, Orico PWDM2-G2-BK-EP, USB-C, 10Gbps (black)

Now you can use your M.2 SATA or NVMe drive more conveniently. The Orico enclosure is very easy to install and allows you to transfer files at speeds of up to 10Gbps. It provides stable, reliable transmission and stands out for its wide compatibility. At the same time, it is extremely lightweight, handy, and durable. The product supports drives with a capacity of up to 4TB.

Instant file transfer

Do you often transfer files between devices? You no longer have to wait too long for your photos or documents to reach their destination! The case allows you to transfer data at speeds of up to 10Gbps. This means that it only takes a few moments to transfer the files you need to your computer or laptop!

Solid construction

High-quality aluminum alloy was used to make the case. This makes the product extremely durable and resistant to damage. It also has a special thermal plate, which ensures that it will not get excessively hot. The case also features a modern, minimalist design and is handy enough to keep on hand at all times.

Reliable performance

The Orico case is equipped with an advanced chip that supports the UASP protocol and TRIM function. This allows it to provide stable, secure and fast transmission. This in turn translates into efficient and reliable product performance. The chassis also has a built-in LED indicator that will provide you with information about its operation status.

Wide compatibility - hassle-free installation

The product features compatibility with various types of M.2 SSDs, including 2280, 2260, 2242 and 2230. It is also very easy to install - you don't need any additional tools for this! What's more, the case works perfectly with Windows, Mac OS, Linux and Android devices, such as laptops and tablets.

Even more space for your files

Don't worry about running out of space for all the files you need. The case is compatible with drives of up to 4TB. So you can save your photos, videos or documents without any problems! This is a perfect solution for graphic designers, photographers and web developers, among others.
