

Habotest HT59 Gas Leak Detector

Habotest HT59 Gas Leak Detector

Ref: 5905316140998

Habotest HT59 gas leak detector

The Habotest HT59 gas leak detector detects different types of gases and provides precise measurement. It is equipped with a dual alarm: light and sound, and thanks to its lightweight and compact design, it will work well in various applications. What's more, it's powered by 2 AAA batteries, which you'll find included.

2 types of alarm

The device uses 2 types of alarm: audible and light - so you will know about the danger immediately. When the detector detects a gas leak, you will hear a signal, and the red bar will signal the concentration of gas.

Precise measurements

The Habotest HT59 gas leak detector provides accurate measurements. It is ready for use after about 30 seconds and has a response time of 5 seconds. Moreover, it is equipped with a solid-state sensor, which is responsible for the product's precise operation. The device detects gases such as methane, propane, butane and carbon monoxide.

Handy design

Habotest HT59 is distinguished by its lightweight and handy design. In addition, the detector is equipped with a special clip, with which

you can easily attach it to your pocket. It will find its use at home, in a factory or at a gas station.

Included

gas leak detector

AAA x2 batteries

instruction manual

Manufacturer

Habotest

Model

HT59

Detected gases

combustible gases

Start-up time

approximately 30 seconds

Response time

approx. 5s

Sensitivity

about 50 PPM

Range

approx. 50 PPM

Alarm

sound and light

Power supply

Batteries 1.5 V AAA x2 (included)

Dimensions

158 x 24 x 28 mm

Price:

€ 16.49
