

Mini Projector Blitzwolf BW-V2 (white)

Mini Projector Blitzwolf BW-V2 (white)

Ref: 5905316140752

Blitzwolf BW-V2 Projector / Mini Projector (white)

Feel like you're in a movie theater wherever you are. The Blitzwolf BW-V2 projector features 1080p resolution and offers automatic keystone correction. It runs on Android 9.0, so you can freely use apps such as Netflix and YouTube. The device supports a 2.4G/5G Wi-Fi connection and can display up to 150" diagonal images. Also noteworthy are the 2 built-in 5W speakers that provide powerful, crisp sound.

High picture quality

With Blitzwolf you won't miss a single detail. The BW-V2 projector features a resolution of 1920x1080p, and also supports 4K files. It also stands out for its high brightness. All this helps to provide a clear, richly detailed image that will delight you with vivid, natural colors. Now you can comfortably watch movies, play games, make presentations and show your loved ones your vacation photos!

Android 9.0

Enjoy a more convenient projector experience. The BW-V2 uses Android 9.0, which makes it extremely user-friendly and provides easy access to many interesting features. It also allows you to comfortably use apps such as Miracast and Airplay, as well as watch videos available on YouTube, Netflix and more. All it takes is a few clicks!

Works well in any room

Create your own theater room wherever you want. The BW-V2 projector allows you to project an 84-150" diagonal image from a distance of 2.6-4.65m. This makes it perfect for both small and larger rooms. In addition, the device offers an automatic keystone correction function, which means it can correct errors resulting from its misalignment in no time.

Wide compatibility

The projector is equipped with several ports, including USB, HDMI and 3.5mm mini jack. This means you can easily connect a variety of devices to it, such as a phone, laptop, USB drive or additional speaker. The projector also supports wireless connection via 2.4G/5G Wi-Fi. The possibilities are truly vast - use the projector the way you want, and enjoy the freedom!

Improved design

The BW-V2 projector impresses not only with its functionality, but also with its stylish, minimalist design. It will perfectly decorate any space! What's more, the device is extremely lightweight and compact, and it is easy to carry with a special handle. So you can easily carry it to another room or to the garden! The projector also works incredibly quietly - don't be afraid of annoying noise.

Built-in speakers

Ensure even more immersion and in your own room feel like you are in the center of exciting events. The projector is equipped with 2 speakers of 5W each. So it can provide high-quality sound that will surprise you with a wealth of detail. Invite your friends for a movie night or play your favorite game - with the Blitzwolf BW-V2 projector you will have an unforgettable experience!
