

Adapter DisplayPort - HDMI Vention HBKB0 1080P HD (Black)

Ref: 6922794743014

Adapter DisplayPort - HDMI Vention HBKB0 (Black)

DisplayPort - HDMI adapter Vention HBKB0 (black)

With this adapter you can quickly convert the DP port on your laptop into an HDMI port, so you can easily connect your device to a larger screen. The product supports 1080P HD video and provides high quality audio. It guarantees interference-free transmission and allows you to copy an image in Mirror mode and display two different images in Extend mode. The robust design means you can use it safely with your devices.

Bet on quality

The product is distinguished by its robust design - its connector has been coated with gold, which makes it resistant to wear and tear, and ensures stable transmission. The PVC cover guarantees durability, so the adapter is sure to accompany you for years. The product is ready for use immediately after connection - no need to install additional plugs!

Enjoy the image on the big screen

HDMI to DP adapter is a simple solution to the lack of HDMI port on your devices. With its help you can easily connect your equipment to flip the image, for example, from your laptop to your TV or monitor. The adapter allows you to transmit video in 1080P HD, providing excellent quality without interference.

Two display modes

The adapter supports image display in two modes. You can copy the image, for example, from your laptop to the big screen in Mirror mode, and use the additional monitor as an extension of your desktop in Extend mode, which will be especially useful for multitasking. Check out how convenient it is!
