Zasilacz do komputera Aigo VK350 350W (czarny)

Aigo VK350 350W Computer Power Supply (black)

Take care of your computer's efficient operation. The Aigo VK350 power supply provides 350 watts of power and is equipped with a 120mm fan. What's more, it stands out for its stable operation and uses an Intel AMD chip. In addition, various types of connectors and cabling will allow you to connect the power supply to your computer and its components.

120 mm fan

The Aigo VK350 is equipped with a 120 mm fan, which is responsible for efficient cooling. So you don't have to worry about overheating your hardware. In addition, it works quite quietly, so that annoying noise will not disturb you while working or playing games.

Thoughtful design

The Aigo VK350 power supply is equipped with a high-voltage electrolyte capacitor and an internal power source PCB. As a result, the operation of the device is stable and efficient. What's more, the product is compatible with dual-core and quad-core Intel AMD processors.

Durable

The product features a durable design, so it will serve you for a long time. It was created with galvanized plates, which translates into

resistance to damage. In addition, it is protected against overvoltage, overcurrent, under-voltage, short circuit and overload.

Manufacturer

Aigo

Model

VK350

Color

black

Maximum power

350 W

Type

Intel ATX 12V, V2. 31

Input voltage

220-240V AC

Frequency

50 Hz

Dimensions

140 x 150 x 85 mm

Cooling system

120 mm, hydraulic bearing

MTBF

20 000 h

Operating temperature

0-45°C

Interface

M/B 20 + 4 pin x1

CPU 4 + 4 pin x1

4 pin x2

SATA x2
