Docking station / wall charger INVZI GanHub 100W, 9in1 (white)

Docking station / wall charger INVZI GanHub 100W, 9in1 (white)

The INVZI GanHub 9in1 is an extremely powerful GaN 100W wall charger and USB-C docking station. It is equipped with 9 ports - USB-C PD 100 W, USB-C PD 100 W with data transfer, USB-C PD 30 W, USB-A, HDMI 4K / 60 Hz, Gigabit Ethernet, 3.5 mm audio and SD and micro SD card slots. So you can quickly charge your devices, copy files, view images on a bigger screen and surf the internet. You'll also find useful cables, a case and interchangeable plugs included.

Wide compatibility

Don't worry about compatibility issues - the product allows fast, hassle-free charging of many popular devices such as MacBooks, iPads, iPhones and Samsung and Sony smartphones. It also allows you to charge wireless headphones and portable gaming consoles, such as the Nintendo Switch. You can also connect the MagSafe inductive charger to it.

Fast charging - fast file transfer

With INVZI you will save time. The charger uses GaN technology for fast yet safe charging. One of its USB-C ports provides up to 100 watts, while the other offers a maximum of 30 W. Both also support the PD standard. What's more, both the USB-C PD 30 W port and the USB-A port allow for file transfer speeds of up to 5 Gbps. No more waiting too long for your photos or videos to reach their destination!

High picture quality

Do you want to comfortably watch the next episode of your favourite series? Do you need to give an important presentation at work? Or do you plan to show your loved ones your photos from your last trip? The INVZI docking station will come in handy for this too! The device is equipped with an HDMI port, which provides high-quality 4K / 60 Hz video. Display your photos or videos on a bigger screen, enjoy crisp colours and don't let any detail escape you!

Memory card slots

The INVZI docking station will also come in handy for photographers and video creators. It is equipped with 2 memory card slots - one for SD cards and the other for microSD cards. Both provide speeds of up to 104 MB/s. So you can conveniently view and copy your photos, videos or music tracks. Make your work easier and save time!

Even more possibilities

Do you often watch movies or play online? Do you need to use the Internet at work? The INVZI station is perfect for these situations too! The built-in RJ45 Ethernet port provides speeds of up to 1000 Mbps. Forget about slow-loading pages or endless buffering! The device is also equipped with an audio jack port, which allows you to connect headphones to it, for example.

Improved design

The INVZI station is suitable both at home and when travelling. You can plug it directly into a power socket or lay it on a table and plug it in using the included extension cable. What's more, the device is very easy to transport - it weighs only around 210 g and comes with a foldable plug (US). The kit also comes with interchangeable plugs - adapters (UK, EU and AU). So you can use the charger almost anywhere in the world without any problems!
