Earphones Soundpeats Engine4 (Black)

HiRes-level sound, long runtime and low latency are just some of the advantages of the Soundpeats Engine4. The headphones use Bluetooth 5.3 and can connect to 2 devices simultaneously. What's more, a dedicated app offers access to practical functions, and operation of the headphones is facilitated by touch panels. In addition, the set includes overlays in 3 sizes, so everyone can customize the Engine4 to suit their needs.

The sound you deserve

The headphones are equipped with dynamic drivers: a 6mm tweeter and a 10mm tweeter, which translates into high quality sound. What's more, it uses the LDAC audio codec, providing HiRes-standard sound. As a result, you can enjoy richly detailed sound.

Pair with 2 devices simultaneously

For greater freedom of use, you can pair the headphones with 2 devices at the same time and switch between them conveniently. This allows you to watch movies on your laptop, listen to music and take phone calls. Enjoy the convenience that Engine4 offers.

Long working time

Listen to podcasts, audiobooks or music on the go and don't worry about your headphones draining too quickly. Engine4 playback on a

single charge is about 12.5 hr, and with the charging case - 43 hr. Charging the device, on the other hand, will be facilitated by the included USB to USB-C cable.

#### Low latency

Play your favorite games and enjoy even more immersion with Soundpeats Engine4. The headphones offer a low latency of 70ms, which translates into better audio and video synchronization. You can enable Game mode via the Soundpeats app.

#### More possibilities with the app

Download the Soundpeats app and gain access to additional features. From it, you'll adjust the EQ, volume, set modes, reset settings and disable touch panels. What's more, you'll receive notifications about software updates or battery levels.
