

## Filters Freewell All-Day for DJI Mavic 3 Pro (8-Pack)

Filters Freewell All-Day for DJI Mavic 3 Pro (8-Pack)

Ref: 6972971861994

Freewell All Day filter set of 8 filters for DJI Mavic 3 Pro / DJI Mavic 3 Pro Cine

All Day Kit is a complete set of 8 filters designed for DJI Mavic 3 Pro / DJI Mavic 3 Pro Cine. The kit includes ND8/PL, ND16/PL, ND32/PL, ND64/PL, CPL, ND1000, ND2000 and UV filters, so you can reduce the amount of light entering the lens and achieve advanced effects such as reducing glare on water surfaces while increasing exposure time. Create breathtaking photos and experiment with Freewell filters! You'll find a special filter storage case included.

### CPL filter

The CPL polarizing filter is designed to reduce reflected light from various surfaces while ensuring color neutrality. It is lightweight and has been coated with a special coating to ensure optimal image quality. Your photos can gain even more depth and will impress with their naturalness.

### ND1000/ND2000 filters

ND (Neutral Density) optical filters allow you to reduce the amount of light reaching the sensor of your camera or camcorder, without changing the color or tone of the photo. These filters are very useful when we need to increase the exposure time or increase the depth of field, but still maintain the right exposure. The filters allow you to reduce the amount of light consecutively by 10/11 apertures. As a result, you will get a blur of moving elements - such as water or clouds.

### ND/PL optical filters

In the set you will find 5 different ND/PL filters. This is a combination of ND (Neutral Density) filter and CPL (Circular Polarizing) filter. They combine the properties of both filters, so you can get fantastic effects. They are used to reduce the amount of light and allow you to increase the exposure time. You can get the effect of blurring water or clouds in your photographs. What's more, ND/PL allow you to reduce glare from surfaces such as water, glass, etc. Using the filters will help you get clearer, more natural landscape photos. ND/PL filters are available in various degrees of light reduction and polarization, allowing you to match them to the specific lighting conditions and effect you want.

Included

Filters

Case

Cleaning cloth

Manufacturer

Freewell

Model

FW-M3P-ALD

Compatibility

DJI Mavic 3 Pro / DJI Mavic 3 Pro Cine

Filter type

ND8/PL, ND16/PL, ND32/PL, ND64/PL, CPL, ND1000, ND2000, UV

Optical coatings

Dustproof, scratch-resistant, oil-resistant

Price:

Before: € 143.9961

**Now: € 143.00**
