Ref: 6974316282365

Wall charger Acefast A53 Sparkling series PD 30W GaN (purple)

The Acefast A53 wall charger stands out not only for its high performance but also for its original design. Its transparent elements give it a unique, stylish character, and intelligent temperature control through AI ensures greater safety during use. The product is also very durable, with its casing made of flame-resistant PC material. Additionally, the built-in LED display allows for convenient monitoring of the current charging power.

Fast Charging

With the A53 charger, you don't have to wait too long for your devices to be ready for work again. The product is equipped with a USB-C port and provides up to 30W of power. It also supports fast charging standards such as PD, QC, FCP, and AFC. So, you can quickly charge your phone or portable gaming console in no time! The charger also utilizes advanced GaN technology, combining compact size with reliable, stable performance.
