

## USB 2.0 4-Port Hub with Power Adapter Vention CHMBF 1m Black

Ref: 6922794746596

USB 2.0 4-Port Hub with Power Adapter Vention CHMBF 1m Black

USB 2.0 hub with 4 ports and power supply Vention CHMBF Black

Vention's USB 2.0 hub is the perfect solution for those who need additional ports on their computer. With four available USB ports, you can connect multiple devices at once - from keyboards and mice to hard drives and smartphones. An additional micro-USB port allows you to connect an external power adapter to enhance the hub's capabilities, and a light indicator allows you to easily check the status of your device.

Optimal performance and power

The Vention CHMBB is no ordinary hub. It can handle up to two 1TB 2.5-inch solid-state drives without additional power. And if you have a higher-capacity drive, an external Android power cable will provide the extra power needed to run such equipment. The data transfer speed of 480 Mbit/s guarantees fast and smooth operation of all connected devices.

Durable construction and modern design

The Vention USB hub was created with durability and aesthetics in mind. Made of durable ABS material in black, it blends in perfectly with any desk. The PVC of which the cable jacket is made ensures long life, and the compact size (30.1 x 100.4 x 11.1 mm) allows for easy storage and transportation. The cable length of 1 m will keep your workstation tidy, and with an output voltage of 5 V and an output current of 2 A, the hub is ready to work with most devices available on the market.
