

Adjustable Spanner 24" Deli Tools EDL024A (silver)

Adjustable Spanner 24" Deli Tools EDL024A (silver)

Ref: 6973107486401

Adjustable Spanner Deli Tools EDL024A

The adjustable spanner allows one tool to work on a wide range of screw sizes. It is made of forged special high quality steel which guarantees its durability and strength. You can easily adjust the opening of its jaws with a special knob. The screw nut opens freely which translates into comfortable use of the tool. The hole in the upper part of the handle allows you to hang the product in the workshop and keep it in order. The laser-engraved scale makes it easy to read and the chrome-plated surface not only looks very elegant but also protects the wrench from rust. Similar tools are ideal for all assembly and plumbing jobs.
