

Steel Measuring Tape 3m/16mm Deli Tools EDL9003B (yellow)

Ref: 6973107486913

Steel Measuring Tape 3m/16mm Deli Tools EDL9003B (yellow)

Steel Measuring Tape Deli Tools EDL9003B

Practical Deli measuring tape with a length of 3m is a universal tool for home and professional use. Using it, you can easily make accurate measurements of walls or floors. Independent work is facilitated by a convenient to use button and automatic lock. A similar measuring tape will come in handy on every construction site and during most renovations. It is suitable for both larger projects and, for example, when refurbishing a small room.

Practical, solid

The 0.11 mm thick rolled tape is made of durable, stiff material, so it does not tangle and holds straight. Its stiffness reaches 1.2 m, which means that it does not break to this length. The graduations on the tape are very clear and easy to read. What's more, the tape automatically retracts slowly enough that you don't have to worry about cutting yourself. The tape measure is also equipped with ergonomic housing made of ABS plastic, which is characterized by strength and high resistance to shocks, falls and wear. The tape has a special measuring hook that allows for precise internal and external measurement. There is a stainless steel handle on the side of the tape measure to attach it to your belt, and on the back there is a string that allows you to hang it in your workshop.

Brand

Deli

Model
EDL9003B
Dimensions
68x26x59mm
Tape width
16 mm
Length
3 m
Accuracy class
II
Color
Yellow
Weight
120g
Material
ABS + stainless steel
