

Ultra Thin HDMI Cable Vention ALEHH 2m 4K 60Hz (Gray)

Ref: 6922794756953

Ultra Thin HDMI HD Cable 2m Vention ALEHH (Gray)

Vention ALEHH 2m HDMI Cable

The Vention ALEHH HDMI cable stands out with its slim design and wide compatibility. With it, you can easily connect devices such as a TV box to a television or a laptop to a projector. Various display modes are available, including duplication or screen extension. The cable supports 4K resolution and a 60 Hz refresh rate, and its additional advantage is the 18 Gbps bandwidth and support for HDR technology. All of this results in a clear, detailed image and vibrant, beautiful colors. Simultaneous video and audio transmission is also possible - you don't need to purchase additional cables.

Enhanced Construction

Unlike most HDMI cables, the ALEHH model is exceptionally thin, taking up less space and being more convenient for transport. It is also impressively durable, so you don't have to worry about it wearing out too quickly. The PVC coating protects it from damage, and the aluminum alloy components provide additional protection. This practical cable will serve you well for many years to come!
