DisplayPort to DVI Cable 2m Vention HAFBH (Black)

Ref: 6922794745292

DisplayPort to DVI 2m cable Vention HAFBH (Black)

The Vention brand cable will meet your expectations when connecting video devices. One of its key advantages is the gold-plated contacts of the connector. They provide excellent signal conductivity, so you can be sure that the image displayed on your monitor or TV will be sharp and interference-free.

Excellent image quality

The DisplayPort to DVI connector makes it ideal for connecting a laptop or desktop computer to a monitor or TV. The cable supports DisplayPort version 1.2, which means the maximum resolution is 1920 x 1080 pixels at a smooth 60 Hz refresh rate. If you're interested in 1080p video modes and 3D functionality, this cable will also support them. Enjoy high-quality images during your favorite audiovisual entertainment!

Robust construction

The use of copper conductor guarantees a stable signal connection with no loss of quality. What's more, the cable is magnetically shielded, which provides protection against electromagnetic interference. This means that you will enjoy a clear picture without flicker or noise. The Vention cable is also a plug and play product, so you don't have to worry about complicated configurations - just plug it in and enjoy excellent picture quality.
