Household Tool Set Deli

The Deli set contains 48 tools that you are sure to use. Whether you're assembling a cabinet, kitchen accessories or a lamp, you'll find the EDL1048J useful for these and similar situations. All elements of the set are placed in a practical case, thanks to which their storage will be simple and convenient. The set includes: knife with adjustable blade length, 10 spare blades, scissors, 3 m long water and fire-resistant insulation tape, 3 m long Teflon tape, roll-up, 3 m measuring tape, 2 screwdrivers with non-slip grip, stainless steel pliers, carbon steel hammer, adjustable wrench (8") with chrome finish, adjustable pliers, Allen wrench set, hexagon socket knob and socket set, 4 mm bit knob, bit set, voltage tester for sockets with voltage range 100-500V, nylon zip ties, and stainless steel tweezers.

Knife with breakaway blade and spare blades

You can use this knife to cut paper, pipes, leather material or boards. The ABS plastic finish and ergonomic design make it comfortable to use, and the durable SK5 blade guarantees precision. In addition, the knife is equipped with a special lock to avoid injury. It consists of 8 parts, so you can use it for a long time. All you have to do is to break off a part of the blade in a designated place when it is no longer sharp. To avoid cutting yourself, use the plastic guard at the end of the knife. If necessary, use the included carbon steel blades. The package contains 10 pieces of 15 parts each.

Insulating tape, Teflon tape, and tape measure

The set includes insulating tape, which you will use, among other things, to connect cable ends. It is resistant to fire, moisture and wear. Its length is 3m. The PTFE (Teflon) tape is useful for sealing pipe connections. In addition, it is resistant to corrosion. In the package you will also find a 3m measuring tape, which will be useful every day for various measurements. Its roll-up design makes it easy to store, carry and use.

Screwdrivers, pliers, voltage testers

The flathead screwdriver and Phillips screwdriver are made of durable materials. The matte grips are non-slip, which makes them very comfortable to use. The strong magnet at the end of the handle ensures stability. The pliers are made of Type 45 carbon steel, and the PVC plastic handle prevents the tool from slipping and is comfortable to use. The hardness level of the pliers is 54-62HRC, which guarantees precise cutting. The tester allows you to check the voltage from 100-500V. It is made of material with a hardness level of 40Cr. The nickel-plated finish provides strength and corrosion resistance. Additionally, its use is simple and convenient.

Adjustable wrench, pliers and claw hammer

The 200 mm long adjustable wrench is made of steel and is corrosion resistant thanks to its chrome plated finish. It also has an adjustment function and is easy and convenient to use. The 8" adjustable pliers are made of carbon steel, and thanks to the ergonomic handle, work is comfortable. The claw's hammer is distinguished by its solid carbon steel construction, and its non-slip handle guarantees stability and comfort in use.

Spirit level, scissors, hexagon socket set + screwdriver

The aluminum spirit level makes it easy to determine the level of a structure and allows you to mount a shelf, for example, correctly. Thanks to its aluminum and compact design, it is lightweight and convenient to use. The stainless steel scissors are sharp and ensure precise cutting, while the ABS handle is comfortable to use and prevents the scissors from slipping out of your hand. In the set you will also find a 6.3 mm knob and a set of 7 hexagonal sockets. They are made of chrome vanadium steel type 50BV30.

Narrow tweezers, wire ties, organizer

Narrow tweezers made of stainless steel are resistant to bending, and thanks to the rubber cover they are durable. The cable ties are made of nylon and are highly resistant to fire. You can use them to connect bundles of cables, tubes, hoses, or wires. In addition, the set includes a small organizer for nails, screws, etc.

Allen wrench set, bit set + screwdriver

The Allen wrenches are distinguished by their versatility. In this set, you will find 5 of them with a hex tip. The practical hanger makes storage easy and tidy. They are made of CRV material and finished with nickel to ensure durability and are resistant to corrosion. In addition, the package includes a bit driver with ergonomic handle and a set of 7 bits with different tips, which are made of chrome vanadium steel. You can use them to assemble furniture or bathroom fittings, they also make it easier to get rid of installed screws.

In the box
